DESCRIPTION

This is the black granite that does not fade.

SIZE

Slab

THICKNESS

2 CM ($\frac{3}{4}$ ")

FINISH

Brushed

APPLICATION

Commercial/Residential Interiors

Vertical/Horizontal

Countertops

CARE + CLEANING

- Clean stone surfaces with a neutral cleaner, stone soap, or a mild liquid dishwashing detergent and warm water.
- An excessive concentration of cleaner or soap may leave a film and cause streaks. Follow manufacturer recommendations.
- Rinse the surface thoroughly after washing with the soap solution and dry with a soft cloth.

DEFINITION

Granite - a very hard, crystalline, igneous rock, composed of feldspar, quartz, and lesser amounts of dark ferromagnesium materials. Gneiss and black "granites" are similar to true granites in structure and texture, but are composed of different minerals. *From Natural Stone Institute.*
